Cook (Canada) Inc., a wholly-owned subsidiary of the Cook Group of companies, distributes medical devices to the Canadian health care industry.

Since 1963, Cook Group companies have been among the leaders in developing health care devices that have improved lives around the world. Cook is at the forefront of medical research and product development in interventional radiology, interventional cardiology, urology, neuroradiology, vascular medicine, critical care, and other growing diagnostic and therapeutic devices.

Today, Cook is among the world's best-known and most respected names in medical devices and supplies. Cook’s commitment to product innovation, skilled hand-craftsmanship and unsurpassed customer satisfaction has earned the company worldwide recognition among medical professionals. Closely allied with top medical research facilities, teaching hospitals and leading specialists around the world, the Cook Group continues to provide innovative, physician-conceived, custom-crafted medical devices to health care providers who will accept nothing but the best for their patients.

We are particularly proud of our capabilities of providing a large number of medical devices even when, in some cases, they may only serve a small percentage of the population – these patients also require medical treatments.
Overview

Sales Team
Many of our sales reps are long-term employees of Cook and have established strong business relationships with our customers. Our sales representatives are based in the territories they serve for the convenience of our customers.

Customer Service
Our bilingual Customer Service Department is available from 8 a.m. to 5 p.m. ET to take orders, facilitate product demonstrations with our sales representatives, or answer questions.

As an EDI trading partner since 1990, we are able to provide our customers with efficient and timely ordering of our products, including rush orders. A standing order program can be arranged also.

Educational Support
A large number of educational support material is available such as patient guides, posters, videos, online video clips, CD ROMs, journal articles, web-supported product slideshows and web-based learning. To obtain any of this material, please contact your sales or customer service representative.

Freight Policy
Our freight policy is as follows:
- Orders over $500 – FOB Hospital.
- Orders less than $500 and/or rushes – FOB Stouffville.

www.cookgroup.com
With research and development taking place in Canada, the United States, Europe and Australia, Cook medical devices are the result of innovative input by health care professionals (health care workers, physicians, nurses, technicians). Our products are continually being improved upon so that patients and health care professionals benefit from the most recent technological advancements, often decreasing lengthy hospital stays.

Over 5,000 products are warehoused in our Stouffville, Ontario office. Many stock products are sold individually and a product evaluation program is available on a case-by-case basis. Our products are packaged in recyclable materials and a full range of reusable and disposable products are available.

To learn more about our products, please visit our website at www.cookgroup.com.
